2024-25 School Year Indoor Air Quality Notification

Kevin McKeever, Superintendent

Dalia Englund, Principal

The Tri-County Schools is proud to be taking a leadership role in providing a safe, comfortable, and productive environment for our students and staff so that we achieve our core mission – educating students. Our school will follow the EPA guidance to improve our indoor air quality (IAQ) by preventing as many IAQ problems as possible, and by quickly responding to any IAQ problems that may arise.

School staff, students and parents can obtain checklists or self-help information so they can properly evaluate their child's home or other out of school situations by contacting the school. Staff and parents can also obtain information about school facility construction, maintenance and housekeeping practices, chemicals used, mold and HVAC related information, chemical producing academic subjects, and pesticide and herbicide applications to determine the extent to which school activities contribute to a child's symptoms by contacting the school.

Barb Muckenhirn has agreed to administer the IAQ program for our school and may be contacted at 2184362261. If you have any questions or concerns, please do not hesitate to contact him.

Small School. Big Opportunities.
